

Question: How do I reset my DVR to its default settings?

Answer: If a DVR fails to function as expected it is often due to misconfiguration. Its best to reset the DVR to its original settings by following the simple steps below.

If a DVR fails to function as expected it is often due to misconfiguration. When DVRs are configured incorrectly and settings are clashing with each other some features may stop working.

In this case the best course of action is to default the DVR back to its original settings. To default an alienDVR just follow these simple steps.

Don't worry, you basic network and password settings will remain as you have set them so you can still access your DVR.

1 Right click the mouse and select 'Menu'.

2 Select 'Tools'.

3 Select 'Default'.
